about 100 feet.

Makes Good Landing.

He returned to within a hundred yards of the hangar and made a good "janding" on the water, after which the machine was towed in by a launch.

The Wright acropiane, which is flown by Lieut. Rockwell, reached the campy resterday afternoon in tow of an automobile, and was placed in the hangar. It will be equipped with postoons and flown to-diag.

Although everything has not some smoothly the officers are greatly encours as mostly the officers are greatly encours as mostly. The officers are greatly encours as mostly the officers are greatly encours as mostly the officers are greatly encours as mostly the officers are greatly encours as mostly, the officers are greatly encours as mostly, the officers are greatly encours as a fast and the machine is not quite as sensitive, because of the weight of the pontions. There is also quite a knack in leaving the water. By holding down the control, the machine may be kept on the water, and is capable of a speed of about fifty miles an hour as a winged boat.

It is understeed that the army is to have built a floating hangar, 115 feet long and a little more than diffy feet broad. The structure could be transported by a tigg to any point on the Potomac or along the coast, where experiments were practicable.

Colored Man is Woodpile.

"People talk of the 'negro question' in the District. Here is the real negro in the woodpile. Were weath in billions rained like manns from heaven upon this District, it would operate not for the benefit of the average inhabitant, but for the enrichment of the handful who own the lands. The nation's appropriation of some \$8.00,000, nominally to cover half the District exposes, is a present, pure and simple, to the land owners of the District of the District people.

The half-and-half tax is the mess of pottage for the posticity people.

The tax is operated for the land owners of the District people.

The tax is operated for the land owners of the District people.

The tax is operated for the land owners, or of those who bought late. Now, when we demand our political birthright, in the sale and price of which we have had absolutely no part, this privileged, land owning class parades its ark of the covenant, the high and holy half and half.

They may fool all the people part of the itime, and part of the people and the time, and part of the people and the time, and part of the people and the time, but the day has passed when they can fool us.

T shall be glad to use any little influence I may possess to induce Conserses to bear its just share of the tax hurdens of the District, but I am unfalterably opposed to any plan whereby Congress shall make, at our exposses, an annual Christmas present of \$4000.

York City. Hurst is employed at the navy yard.

About It o'clock Wednesday night Mra. Phelps and Mr. and Mrs. Hurst and the Hurst child returned to the apartments from the theater. They were awakened about two hours after retiring by the odor of illuminating gas. Investigation disclosed that two gas lets in Mra. Phelps' room had been open-de, and four in the room occupied by the Hursts were flowing full. Although the door to the apartment was locked by the companis before they retired, the door to the apartment was locked by the companis before they retired, the door to the apartment was locked by the Cifficials say the occupants before they retired, the door they have been killed by the gas as every window in the apartment was open. Mrs. Phelps and Mr. and Mrs. Hurst believe that the turning on of the gas is in some way connected with a robbery in the apartment on Tuesday last when a vanity set and H was stolen from Mrs. Hurst's bureau.
